submitted cost report will be used to establish the new owner's rate when the comparable cost reports are used to set rates. For the periods prior to the use of the new owner's cost report, the new owner will receive rates based on the previous owner's approved cost report data, with the appropriate Dodge Index property rate. If the new owner's initial cost report contains less than six months of patient day data, when the initial cost report period reports are used to set rates, the new owner will receive a rate based on the previous owner's last approved cost report inflated to current costs, as determined by the Division, or the costs from the new owner's initial cost report, whichever is lower. If the ownership change is between related parties, when the initial cost report period reports are used to set rates, the old owner's cost report and new owner's cost report for the year of the ownership change may be combined and considered in determining the minimum rate for the new owner.

- i. Reported costs must conform to Divisional instructions, or in the absence of specific instructions, to the allowable costs discussed in the CMS-15-1. Reported costs are subject to audit verification by the Division, State or Federal auditors or their agents. Providers using computerized information systems for accounting or other purposes must make this information available in a suitable electronic format if requested by the Division or its agents. Where such audit verifications determine that the cost report was prepared based upon inadequate accounting records, the facility will be required to correct its records and submit a corrected cost report. A penalty will be imposed on the facility for the costs incurred by the Division for any additional audit work performed with the corrected cost report.
- j. For audit examinations described in (i) above, it is expected that a facility's accounting records will be available within the State. Should such records be maintained at a location outside the State, the facility will be required to pay for travel costs incurred for any examination conducted at the out-of-state location.
- k. Should a cost report submitted to the Nursing Home Unit for review need explanation or clarification, appropriate workpapers or letters of explanation should be attached.

1. All cost reports and correspondence concerning these cost reports are to be mailed to the following address:

Division of Medical Assistance Nursing Home Reimbursement Section 2 Peachtree Street, N.W. Atlanta, Georgia 30303-3159

#### 3. Reimbursement Principles

The objective of a system of reimbursement based on reasonable costs is to reimburse the institution for its necessary and proper expenses incurred related to patient care. As a matter of general reimbursement principle, costs with respect to individuals covered by the Medicaid Program will not be borne by those not covered and costs with respect to individuals not covered by the Medicaid Program will not be borne by the Program. The principles of cost reimbursement require that institutions maintain sufficient financial records and statistical data for proper determination of costs payable under the Program. Such records and data must be maintained for a period of at least three years following the date of submission of the cost report
